

School of Allied Health at LSU Health Sciences Center

State Owned
 Facility Planning & Control Developed
 Bid Construction Contract

Location:
 Shreveport, LA

Completed:
 April 2006

Size:
 45,000 square feet

Scope:

The primary goal of this project was to relocate and expand the school of allied health on adjacent property to the existing health sciences center. The first floor contains multiple outpatient clinical spaces. The upper floors contain classroom and office spaces for the practical training and administration of the school.
