

Volunteers of America Master Plan

Location:
Shreveport, LA

Completed:
Feasibility Studies

Scope:
Volunteers of American of North Louisiana engaged Somdal Associates to perform design and feasibility studies for the Highland Center formerly the Highland Baptist Church.

The studies included review of basic building function and pathology to determine the condition and expected life of the major building components.

We also performed space planning studies to determine the best use of the three building campus in relation to the multiple functions of the VOA.

The current status is in funding studies for the \$6 - 8 million renovation.
